WORK EXPERIENCE

Frontend Engineer (SDE 2)

smallcase Technologies Private Limited

12/2019 - Present

Achievements

- Worked briefly on Broker Platform, contributing to translating pixel-perfect designs into code.
- Developed 'Smallboard', an internal tool that became widely popular across the company and the primary choice for product back support.
- Devised and implemented a highly sophisticated Identity and Access Management (IAM) system for Smallboard, showcasing exceptional architectural and development prowess.
- Migrated monolithic repository to independent repositories with pertaining commit history along with OAuth and Login flow re-architecting.
- Improved performance of an application resulting in boosting up the light house performance score from 62 to 82, LCP from 7.1s to 2.1s, Total Blocking Time from 150ms to 10ms and Speed Index from 7.5s to 3.1s.
- In smallboard, Oversaw project planning, resource management, and timeline adherence while prioritizing team needs and delivering efficient solutions and multiple features.

UI Developer

Eve Health Software Analytics

07/2017 - 12/2019

Achievements

- Proficiently developed web applications using React and Jquery emphasizing optimised, clean code and test-driven development techniques.
- Independently designed and developed UI for multiple internal projects from conception to completion.
